

Standart Features

- Steel (St-52) construction body
- On APK101 and APK121, the rolls are driven by motor+planetary gearbox and gears.
- Shafts are made of special steel, hardened
- On APK101, guide rolls are adjustable in two directions.
- On APK121, guide rolls are hydraulically adjustable in two directions.
- One set standard rolls
- Manual lubrication
- Hydraulically moveable lower rolls up and down
- Digital display for lower rolls
- Separate and moveable control panel
- Horizontal & vertical working
- 400 Volt / 50-60 Hz
- Production quality certified by CE, ISO9001 and TURQUIM.

Optional Features

- Special rolls for tubes, profiles and angles
- Special mechanic guide Rolls for bending (APK 101)
- Special tooling systems for bending U.I.H (APK 101)
- Spiral bending device
- Variable speed of rotation
- Hydraulically adjustable guide rolls in two directions (APK 101)
- Digital display for hydraulic guide rolls
- NC Playback Control System
- CNC Graphic Control System
- Motors in variable voltage and frequency.
